Technology Support Fund

As the Covid restrictions are lifting and parishes are returning to in-person worship, there is a concern that we provide some form of hybrid service so that those who are unable or hesitant to return may still connect with worship. Different methods will work for different parish needs. The Diocese is prepared to assist parishes in obtaining the necessary technological tools to accomplish some form of hybrid worship. **Please note that while the limit on funds for any one parish support is \$2500.00, we do not expect that most parishes will need such expensive equipment.**

Application for Support from the Creative Ministry Fund

1. Please describe the method of hybrid worship and the equipment necessary .

2. Please outline how this program or event will provide an opportunity for hybrid worship in your parish

3. Please provide a breakdown of the cost of the equipment and any available parish funds.

4. Please outline the research the parish has undertaken to ensure the equipment is appropriate and at the best price.

Please submit completed forms to the Executive Officer- exec@kootenay.info
